

# HIE PROFILE:

## Who We Are

ICC is a nonprofit alliance of healthcare providers in Central Texas dedicated to the collection, analysis and sharing of health information with the goal of improving healthcare quality and cost efficiency across the continuum of care.

## Counties Served

Bastrop, Burnet, Caldwell, Fayette, Gillespie, Gonzales, Guadalupe, Hays, Travis, Victoria and Williamson

## Services

- **Community Health Record (ICARE):** allows authorized providers to access a patient's medical history, viewed from multiple sources
- **Direct Messaging (ICC Direct):** allows healthcare providers to compose, view and manage secure direct messages
- **Data Analytics:** Allows healthcare providers to access healthcare information that has been inspected, analyzed, and/or transformed in a manner that highlights useful population-health information and/or supports clinical decision making
- **Event-Based Clinical Notifications:** Notifies healthcare providers of a patient event that occurred such as admission, discharge, or transfer (ADT)

## Highlights

- One of the first HIEs in Texas to receive full accreditation from the Texas Health Information Exchange Accreditation Program and the Electronic Healthcare Network Accreditation Commission
- Connected to HIETexas, a set of state-level shared services enabling HIE-to-HIE connectivity between authorized HIEs in Texas and across the country
- Experienced provider of HIE services, operating since 1998
