Who We Are

Healthcare Access San Antonio (HASA) seeks to enhance access to care for community residents by facilitating the exchange of patient information across providers in a safe and secure environment.

Counties Served

Atascosa, Bandera, Bexar, Collin, Comal, Dallas, Denton, DeWitt, Edwards, Ellis, Fannin, Frio, Kerr, Kendall, Gillespie, Gonzales, Grayson, Guadalupe, Hays, Hunt, Johnson, Karnes, Kaufman, Kinney, Medina, Mason, Menard, Parker, Real, Rockwell, Tarrant, Uvalde, Val Verde, Wilson and Wise

Services

- **Community Health Record (HASAProviderAssist):** Allows authorized providers to access a patient's medical history, viewed from multiple sources
- **Data Analytics (HASAFacts):** Allows healthcare providers to access healthcare information that has been inspected, analyzed, and/or transformed in a manner that highlights population-health information and/or supports clinical decision making
- **Community Patient Portal (GoAccount):** Allows patients to access a patient's health record in one easily accessible community patient portal
- **Event-Based Notifications (HASAAAlerts):** Allows healthcare providers to receive alerts regarding a specific patient population, when an event occurs, such as a hospital admission or discharge, without the necessity of an EMR interface
- **Communication Tools (HASAReferrals & LoneStarDIRECT):** Secure, accountable referral & email platform, which provides real-time communications around transitions of care

Highlights

- First HIE in Texas and fourth in the nation to achieve full HIE accreditation
- Connected 1,593,819 individuals, recorded 4,805,942 individual patient encounters
- Offers a Community Patient Portal, allowing patients to view an aggregated summary of their health information from across the community
